

MEASURE YOURSELF

Measuring Guide

A - Chest
B - Waist
C - Inside Leg

Important

- Measurements given must be in inches as above and are 'To Fit' not garment measurements.
- Anyone who gives a measurement in between either 2 of the above will automatically be moved up not down.
- If you prefer garments to feel bigger when worn you will have to order a larger size and vice-versa.
- * If you are comparing our sizing to other bespoke sports brands (not high street brands) please ensure you check their 'To Fit' measurements. For example, our size M has a 40" chest whereas some others are 42"

Please quote chest and waist measurements in INCHES when placing orders. Example: XL () waist and chest measurement in brackets.

When ordering a product, we recommend measuring the chest size and then order the product appropriate to the fit required. Please bear in mind the product itself does not necessarily measure the physical chest measurement.

Please see below for approximate garment measurements to actual chest measurements.

MEN'S SIZE GUIDE
